BLOX is a modular cubicle screen system developed in Australia with local textile weavers and manufacturers.

It's a sustainable alternative to single-use disposable cubicle screens which provide a false economy and end up in landfill.

Why textile cubicle screens?

Often the issues associated with textile cubicle screens have been the weight of large curtains that makes the laundry/maintenance processes more difficult; varying sizes needed in any one hospital and infection control issues, meaning they are bypassed for the disposable option.

BLOX solves all of these problems and more.

10 REASONS WHY BLOX IS YOUR BEST CUBICLE SCREEN CHOICE:

- 1. MADE IN AUSTRALIA.**
Keeps jobs and \$\$\$ onshore.
- 2. 2M X 2M ONE SIZE MODULE.**
Fits all size needs - reducing inventory.
- 3. INTEGRATED LIFE-LONG ANTIMICROBIAL SOLUTION.**
Helps keep patients and staff safe.
- 4. FLAME RETARDANT POLYESTER.**
Meets AS/NZ standards.
- 5. WEIGHS ONLY 1.1KG PER MODULE.**
Easy to install and launder.
- 6. CLEANABLE.**
Launder only the soiled panel between regular maintenance - keeps costs down.
- 7. MADE WITH 50% RECYCLED POLYESTER.**
Recyclable and up-cyclable. No landfill! - 100% sustainable.
- 8. ATTRACTIVE DESIGN.**
Keeps "white coat syndrome" at bay.
- 9. WORKS WITH EXISTING SUSPENDED TRACKING.**
No retrofitting necessary.
- 10. LASTS 10-15 YEARS AND BEYOND.**
Is an effective, affordable, long-term solution.

BLOX Foam

BLOX Lime Twist

BLOX Coastal

BLOX Stone

BLOX Natural

BLOX Pumpernickel
